

Isolation Valves and Actuation Technologies

Resilient Seated Butterfly Valves

- Keystone 2" – 96"

High Performance Butterfly Valves

- Keystone K-LOK 2" – 36", ASME 150 – 300

Triple Offset Valves

- Vanessa 3" – 120", ASME 150 – 1500

Electric & Pneumatic Actuation

- In-house Custom Valve Automation
- EIM, Keystone, Bettis

Keystone™ Series 36/37 High Performance Butterfly Valves

Keystone™ Series GRW/GRL Butterfly Valves

Vanessa™ Series 30,000

EIM™ HQ-Series Quarter-turn Electric Valve Actuator

Control Valves, Regulators, and Steam Specialties

Control Valves

- Fisher EZ/ET 1/2" – 10", ASME 125 – 600
- Fisher Vee-Ball 2" – 18", ASME 150 – 600
- Pneumatic & Electric Failsafe Actuators

Regulators

- Fisher MR95 & 92B, ASME 150 – 300

Electric & Pneumatic Controls

- Emerson Electronic Controls
- Fisher Pneumatic Controllers
- DVC6200 Valve Positioners

Safety Relief Valves

- Kunkle, Crosby

Steam Specialties

- Yarway Steam Traps, Blowoff/Blowdown Valves

Fisher™ Type 92B Self-Powered Control Valve

Fisher™ MR95 Series Pressure Regulator

Fisher™ CS800 Series Regulators

Fisher™ easy-e™ ET Control Valve

Fisher™ Type 92S Self-Powered Control Valve

Fisher™ Vee-Ball™ V150E Control Valve

Yarway™ Welbond High Pressure Globe Valves

Kunkle™ Series 6000 Safety Valves

Yarway™ Repairable Drip and Tracer Steam Traps

DELTA^V

ROSEMOUNT™

Controls

Custom combustion control and burner management systems, PLC and DeltaV based systems including Assets Management capabilities

Services

Instrumentation calibration, flow and pressure control valves, flow meter sizing and calibration, combustion tuning

Flow Meters

Applications include boiler, gas, steam, oil, feedwater and flow metering equipment

Burners

John Zink Hamworthy Combustion, Coen, Todd, and Peabody new low NOX and ultra low NOX burners and legacy parts for existing burners

Boilers

Victory Energy Operations firetube, watertube, HRSG

Economizers

Victory Energy Operations

Instrumentation

Rosemount measurement pressure, temperature and differential pressure transmitters including instrument manifolds, temperature transmitters, RTDs, thermocouples and thermowells

Actuators

Rosemount/Hagan pneumatic actuators with digital positioners

Emissions Monitoring

Rosemount oxygen, CO, and opacity analyzers

Rosemount™ PowerVUE™
Fan Damper Actuators
4x5 Torque Type

Rosemount™ 6888
In Situ Oxygen Analyzer

Victory D-Type
watertube boiler

Todd Variflame™ 2-burner
wind box

Rosemount™ OPM4001
Opacity Dust Density
Monitor - EPA Compliant

Rosemount™ 8800
MultiVariable
Flow Meters

Company Overview

Celebrating its 70th year in business, Proconex—the Emerson Impact Partner for Emerson Automation Solutions in the Mid-Atlantic region—is a leading provider of Process Automation Control Systems, Valves and Control Devices, and related technologies and services. This partnership connects our customers with world-class solutions, a wide array of products, engineering excellence, dedicated field support, and factory certified personnel. With three strategically located offices, Proconex maintains a deep dedication to its 200 employees, a sharp focus on safety and quality, and the drive to deliver a premier customer experience.

24/7 Support.
