

# ASCO™ Solenoid Valves

single/dual solenoid (mono/bistable function) - pilot operated  
brass body - "NAMUR" style - 1/4" tapped

3/2 NC - 5/2  
SERIES  
551

## Features

- The monostable spool valves in conformity with IEC 61508 Standard (2010 route 2<sub>h</sub> version) have TÜV certified with integrity levels: SIL 2 for HFT = 0 / SIL 3 for HFT = 1
- The solenoid operated spool valves have threaded port connections and "NAMUR" interface
- The same spool valve can be adapted for 3/2 NC or 5/2 functions for controlling double-acting and single-acting actuators
- All the exhaust ports of the spool valve are connectable, providing better environmental protection. Particularly recommended for sensitive areas, such as clean rooms, and applications in the pharmaceutical and food processing sectors
- The valves offer environmental protection against the ingress of liquids, dusts or other foreign matter (environmentally-protected construction)
- Can be externally piloted (external air pilot supply) to convert valve to zero minimum operation by flipping a gasket
- The solenoid valves satisfy all relevant EU Directives

## General

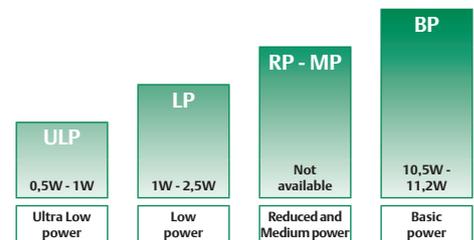

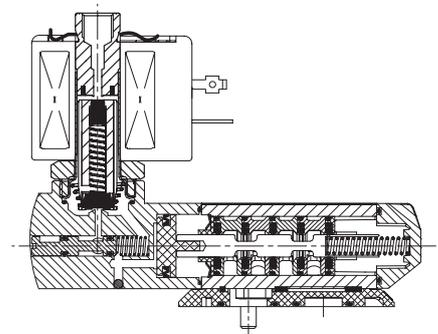

Differential pressure 2 - 10,4 bar [1 bar = 100 kPa]  
Flow (Q<sub>v</sub> at 6 bar) 700 l/min (ANR)

| fluids (*)               | temperature range (TS) | seal materials (*)                  |
|--------------------------|------------------------|-------------------------------------|
| air, inert gas, filtered | -40°C to +60°C         | VMQ (silicone) + PUR (polyurethane) |

## Materials in contact with fluid

(\*) Ensure that the compatibility of the fluids in contact with the materials is verified

**Product selection guide**

**STEP 1**

Select basic catalogue number, including pipe thread identification letter. Refer to the specifications table on page: 1

**Example: G551A403**

**STEP 2**

Select prefix (combination). Refer to the specifications table and the prefix table, respect the indicated power level.

**Example: EM**

**STEP 3**

Select suffix (combination) if required. Refer to the suffix table, respect the indicated power level.

**Example: MO**

**STEP 4**

Select voltage. Refer to standard voltages on page: 3

**Example: 230V / 50Hz**

**STEP 5**

Final catalogue / ordering number.

**Example:**

**EM G551A403MO 230 V / 50 Hz**

**Suffix table**

| suffix |   |   |   |   |   |   | description   | power level |     |    |    |
|--------|---|---|---|---|---|---|---|-------------|-----|----|----|
| 1      | 2 | 3 | 4 | 5 | 6 | 7 |   | ULP         | LP  | MP | BP |
|        |   |   | M | O |   |   | Push type manual operator                                 | ○           | ○/● | -  | ●  |

|        | M5        | <b>34600484</b> <sup>(2)</sup>      |

● Available feature

○ Available feature in DC only

- Not available

\* ATEX/IECEx valves using these solenoids are approved according to EN ISO 80079-36 (2016) and EN ISO 80079-37 (2016) [non electrical]

<sup>(1)</sup> Not to use with MO suffix

<sup>(2)</sup> Provided with "SL" suffix

**Ordering examples valves:**

## Explanation of temperature ranges of solenoid valves

|                                    |   |
|------------------------------------|---|
| Valve temperature range            | The valve temperature range (TS) is determined by the selected seal material, the temperature range for proper operation of the valve and sometimes by the fluid (e.g. steam) |
| Operator ambient temperature range | The operator ambient temperature range is determined by the selected power level and the safety code  |
| Total temperature range            | The temperature range of the complete solenoid valve is determined by the limitations of both temperature ranges above  |

## Electrical characteristics

|                       |   |

<sup>(1)</sup> (WS)NF: Low Power, 230 V AC does not exist. Maximum voltage in AC is 115 V

<sup>(2)</sup> Temperature range can be limited by sealings

<sup>(3)</sup> Refer to the dimensional drawings on pages: 5 to 8

<sup>(4)</sup> Multiple coil kits are available under ATEX/IECEX, contact us

<sup>(5)</sup> LPKF/WSLPKF: 24 V DC (0,5 W)

<sup>(6)</sup> LI/WSLI: Check the electrical characteristics in the corresponding catalogue pages

<sup>(7)</sup> LI/WSLI: Ultra Low Power, 24 V DC only (LI: **For use in zone 0 locations, see the installation conditions given in the I&M instructions**)

- Not available

## Electrical connections

| prefix                 | connection   |
|------------------------|--|
| SC                     | Spade plug connector with cable gland EN175301-803A (ISO 4400) for cables with an outer diameter from 6 to 10 mm |
| WP, WS, EM, WSEM       | M20 plastics cable gland for cables with an outer diameter from 7 to 12 mm.                                      |
| NF, WSNF, LPKF, WSLPKF | 1/2" NPT threaded cable entry. Enclosures are supplied without cable gland                                       |
| PV                     | Moulded-in cable, standard length 2 m  |
| LI, WSLI               | 1/2" NPT threaded cable entry. Enclosures are supplied without cable gland                                       |
| EF, EV                 | 1/2" NPT conduits  |
| JBEF                   | EF + Junction box  |

## Additional options

- Valves configured for external pilot air supply, TPL 20547
- Other pipe threads are available on request
- Ex mb (prefix "PV") solenoid can be supplied with various cable lengths
- Set of stainless steel mounting screws (series 551), catalogue number: **97802212**
- Set of two G 1/8 exhaust reducers (series 551), catalogue number: **88100344**

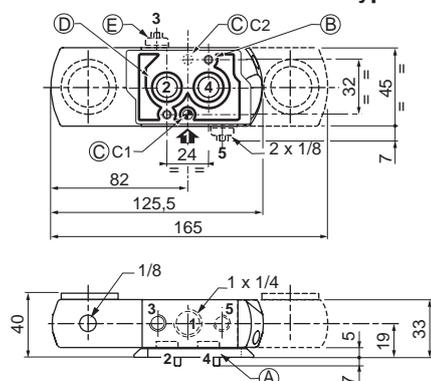

## Installation

- Multi language installation/maintenance instructions are included with each valve
- The solenoid valves can be mounted in any position without affecting operation
- 3/2 NC-5/2 spool valve supplied with one interface plate with NAMUR mating surface. Depending on function (3/2 NC or 5/2), position the plate on the spool valve body before installing on actuator
- Do not connect the pressure supply to the exhaust port 3. The "environmentally-protected" construction is not adapted for NO function. Contact us for function available in specific version
- Dowel pin (if necessary), bolts and gaskets are standard supplied
- IEC 61508 Functional Safety (suffix SL). Check temperature range of valve body and solenoid for suitability. For probability of failure, contact us
- It is necessary to connect pipes or fittings to the exhaust ports to protect the internal parts of the spool valve and its pneumatic operator if used outside or in harsh environments (dusts, liquids etc.)
- Threaded pipe connection identifier is 8 = NPT (ANSI 1.20.3); G = G (ISO 228/1)
- Ex db Prefix "NF/WSNF" enclosure is provided with a 1/2" NPT threaded entry hole, M20 x 1,5 (prefix "ET") is optional. These are supplied without cable gland
- To comply with IEC 61508 (SIL) the valves must be provided with a specific exhaust protector (see following pages)

## Dimensions (mm), Weight (kg)

### All types

- Ⓐ Interface plate
- Ⓑ 2 mounting holes: 5,3 mm dia. (Spotfacing: 9 mm dia., depth 5 mm); 2 screws (CHc M5 x 35), engaged length: 7 mm
- Ⓒ One 5 mm dia. hole for dowel pin:
  - in position C1: 3/2 NC function plate
  - in position C2: 5/2 function plate
- Ⓓ 2 O-ring seals (supplied)
